Remote learning dance resource

Week 1

Let's keep students dancing in school and at home

We have been on the phones again this week and would like to thank you for embracing the changes we have made to existing programs in Term 2, 2020. In essence, smaller class sizes to allow 4 square metres around each student, outdoors teaching and no partner dancing. If there are further government requirements, we will make all the necessary changes to provide students and educators with the programs we have continued to deliver over a 26-year period.

We understand there is a number of families who have chosen to self-isolate and we would like to support them as well. We will be releasing via newsletter and our social media platforms a weekly dance that students will be able to engage in at home. We believe the Arts will play an essential role in students' overall well-being during this challenging time. Simply click on the F/K-2 link or the 3-6/7 link to view/share your weekly dance video. You can forward this email to your students or alternatively click on share, copy the link and upload it to your online student platform.

Your continued understanding is greatly appreciated and to put it simply, your support has never been more important.

Please stay safe and keep moving!
